PROFESSIONAL SUMMARY

IBM Certified Full-Stack JavaScript Developer and Computer Science graduate specializing in engineering production-ready web platforms with **React.js, Node.js, Express.js, MongoDB, Supabase, and Firebase**. Skilled at combining core software engineering principles with state-of-the-art AI pair-programming toolchains (Claude, ChatGPT, Gemini, Cursor) to accelerate full-lifecycle delivery—from architecture and secure REST APIs to responsive UI/UX and containerized cloud deployments on Vercel and Render. Proven record delivering **8+ live web applications** across healthcare, pharmacy, real estate, and commerce domains.

TECHNICAL EXPERTISE

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive UI

Backend & APIs: Node.js, Express.js, RESTful Architecture, RBAC Security, JWT Authentication

Databases & Cloud: MongoDB, Supabase, Firebase (Firestore/Auth/Hosting), Docker, Vercel, Render

AI & Tools: AI Prompt Engineering, Cursor, Git, GitHub, Postman, Code Review, Debugging

WORK EXPERIENCE

Full-Stack Web Developer • Freelance & Client Projects

2026 – Present

- Architected, developed, and deployed **8+ production-ready web applications** across healthcare, pharmacy, real estate, and commerce sectors on Vercel and Render.
- Engineered scalable backend RESTful microservices with **Node.js, Express.js, and MongoDB / Supabase** incorporating Role-Based Access Control (RBAC) and real-time synchronization.
- Integrated AI-assisted engineering workflows (Cursor, Claude, Gemini) to enhance developer velocity, eliminate boilerplate, and conduct rigorous code reviews and bug fixing.
- Built high-converting, mobile-first responsive interfaces in React.js and Tailwind CSS with smooth UX interactions and optimized page-load performance.

FEATURED PROJECTS (8+ PRODUCTION APPS)

Hospital Management System — React • Node • Express • MongoDB

Healthcare platform with dedicated portals for patients, doctors, and admins. Includes appointment booking, live token queues, digital medical record storage, and MongoDB RBAC security.

Pharmacy Management & Wholesale — React • Node • Express • Supabase

Comprehensive pharmacy portal with real-time inventory management, batch tracking, product catalogs, and automated wholesale order workflows.
